

Eyes HD Ocean Camera

Capture the underwater action

The **Eyes HD Gen2** Ocean Camera can be mounted anywhere allowing you to capture the magic of your own underwater aquarium beneath your boat in full 1080p High Definition video.

Never miss the moment the fish strikes or when you're lucky enough to have a pod of dolphins swimming with you. Cockpit mounting means you get a different view of the event and can provide evidence of your winning catch.

ATTRACT FISH, CATCH FISH. YOUR WELCOME.

OceanLED

The ultimate light display at your fingertips.

Transform your underwater lighting with this free mobile App for iOS or Android. Pick your favorite colour, sync with your tunes or switch to *Wave Impact* mode for a dramatic spectacle on the move.

Compatible with X Series X8/X16, Explore E6 and Pro Series HD Colours.

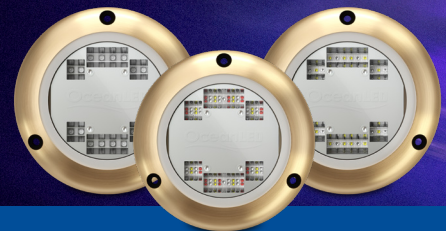

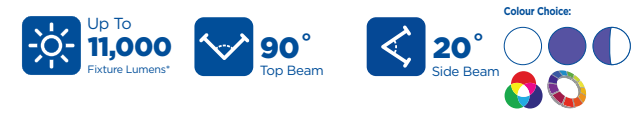

NEW Explore Series

The Ultimate choice underwater LED light

OceanLED **Explore Series** is the ultimate choice, flush mount underwater LED light for those who want to be seen. The mix of optics, electronics, form factor and internal driver work together to make the most advanced underwater light available in the market, a true class leader.

Offering a striking 90° surface beam angle with a focused 20° side beam which penetrates further, illuminating a more extensive area with minimal loss.

Sport Series

Designed to shine.

The OceanLED **Sport series** is the perfect choice for fishing and cruising in small to medium sized boats.

Advanced optics designed exclusively by OceanLED, create an optically efficient 90° surface beam angle with a focused 20° side beam displaying a striking amount of water penetration and a significantly larger illuminated area. With up to 5000 fixture lumens, low profile and compact design, the Sport Series is truly the leader in its class.

X Series

Spend more time on the water.

Fantastic for fishing or having fun with family and friends. With a wide choice of sizes and colours, the **X Series** offers a range of mounting and colour options to help create your perfect light show and enjoy more time on the water.

Colours models offer full control, interactivity and colour customisation. You can toggle between the colours or with our OceanDMX controller and smartphone app; your choice is virtually limitless.
